• Ultra 4800

NDTC cannot guarantee the quality of NDTC TV+ on devices due to manufacturer updates and changes.

In addition, televisions with Fire TV and Roku built-in have not been tested for this service, due to far too many makers and models. Some models of these TVs have been know to work, but tend to perform slower than an external device.

*Note: Model S3L46N applies to both 3rd-Gen Fire TV Stick (supported) and 1st-Gen Fire TV Stick Lite (unsupported)—verify in settings before purchase.
